

Wells Fargo Payment Manager®

A custom Yardi Add-on by Gelbgroup Consulting

Simplify. Integrate.

The Payment Manager Module creates a file that will be delivered to the bank so that they generate payments via check, EFT or credit card. The module supports check, EFT and credit card payment types for vendors, tenants and owners.

Streamline your payments.

Wells Fargo Payment Manager transmits a file from Yardi Voyager for physical payments to be made and sent or transmitted out by the bank as checks, ACH or credit card payments to vendors.

Work more efficiently.

Streamline your payment system with Wells Fargo Payment Manager®. Diverted payments can be sent to your office rather than the vendor for special circumstances.

Empower
Create
Inspire

We can help maximize your return on your Yardi investment. By working together with our industry experts and more than 20 years of invaluable insights, we'll help you work smarter, more efficiently and with better results.
