

Business Intelligence Consulting Services

Gelbgroup empowers your vision for your operations today and strategy for tomorrow.

See more. Execute better.

Before you can have beautiful dashboards and charts where trends and insights pop effortlessly, there are some “house keeping” items to attend to. Data warehouse that is. Is it well designed? Is it well-managed? Is it secure?

“We live in an age where business intelligence is more key to a company’s survival than ever.” Forbes, February 2023

Gelbgroup is your partner for the full lifecycle of your business intelligence initiatives.

If you’re at the beginning of your data journey, we will help:

- Design and manage your data warehouse.
- Design and develop your Power BI dashboards, for your various stakeholders.
- Design, build, and deploy Microsoft Power Apps.

If you’re ready for the next generation of business intelligence with Yardi Data Connect, we can:

- Extend Yardi’s Dataflows with standard subscriptions for **Job Cost**, **Investment Accounting**, and more to come soon.
- Enhance your data warehouse with additional data sources.
- Customize your Power BI dashboard.
- Develop additional Dataflows, tailored for your enterprise’s needs.

**We Empower.
We Create.
We Inspire.**

We can help maximize your return on your Yardi investment. By working together with our industry experts and more than 25 years of invaluable insights, we’ll help you work smarter, more efficiently and with better results.
