

Yardi Procore Connector

A custom Yardi Procore® Integration by Gelbgroup Consulting.

Synchronize. Simplify.

Yardi Connector synchronizes construction management data between Procore® and Yardi. Reduce double-entry by providing an automated one-click sync for new vendors, projects, commitments, and more. Utilize Procore®'s project management tools to efficiently export commitments and change orders to Yardi for accounting purposes.

Improving workflow, one push at a time.

- Push Yardi jobs and budgets to Procore®.
- Push Procore® commitments and line items to Yardi.
- Push Yardi direct costs to Procore®.
- Push Yardi vendors to Procore®.

We provide a custom user interface where users can review synchronized data between the two systems. Users have the flexibility to utilize the scheduled automatic synchronization or choose manual synchronization from the interface.

Accuracy counts.

Accurately synchronize job information, budget line items, commitment information, and direct costs with the click of a button and/or a scheduled sync time. Connect with the Gelbgroup team to set up your implementation and watch your workflow go from busy to easy!

We Empower.

We Create.

We Inspire.

We can help maximize your return on your Yardi investment. By working together with our industry experts and more than 25 years of invaluable insights, we'll help you work smarter, more efficiently and with better results.
