

Data Connect + Customized Dataflows

Gelbgroup will customize the flow of your Yardi data to harness the magic of Power BI.

Make your Yardi data (even more) actionable.

This brand-new addition to your Yardi toolkit brings unmatched possibilities, insights and analysis. Without lifting a finger, go beyond the usual and automatically leverage a new trove of data through Yardi Data Connect.

With so much data available, every modern organization must be data driven in its decision making. This is no longer optional. Gelbgroup will help you rise to that challenge with Yardi Data Connect by facilitating the transfer of data and making them available to you via custom analytic dashboards.

Decision support made easy.

- Eliminate manual steps to connect disparate sources so you can better rely on your data and its integrity.
- Customize reports and dashboards for your stakeholders to help them visually track key metrics and performance.
- Automate complex data analysis to make rapid insights your competitive advantage.
- Sync essential data regularly from the Yardi Cloud to your Microsoft Azure environment.

Empower your decision makers and problem solvers with these Gelbgroup Custom Dataflows with more to come soon:

- Job Cost.
- Investment Accounting.

**We Empower.
We Create.
We Inspire.
Since 1996.**

We can help maximize the return on your Yardi investment. With more than 25 years of invaluable insights, our industry experts will help you work smarter, more efficiently and with better results.
