

# Yardi Aspire — Custom Courses and Ongoing Administration

---

Gelbgroup Consulting is a partner for Yardi Aspire implementation, administration, support, and customization.

## Empowering your Yardi team at scale.

Adding Aspire to your Yardi tech stack provides an integrated approach to oversight and human resources (HR) compliance. Having an industry-specific learning management system (LMS) in Aspire means that, by default, all content is tailored for real estate and property management personnel.

Investing in learning technology from Yardi creates unique opportunities to close the gap between learning and doing with Yardi product integrations, such as single sign-on, YardiOne provisioning, and contextual training recommendations in Yardi products.

**According to Harvard Business Review, developing employees' strengths can boost sales, profits, and engagement—an increase of as much as 29% in profit and 10% in productivity.**

As your Yardi Aspire “strength training” partner, Gelbgroup will administer and manage Aspire to help protect your investment in recruitment by streamlining onboarding, skill-gap analysis, performance review, and mentorship tracking.

**We Empower.  
We Create.  
We Inspire.  
Since 1996.**

We can help maximize the return on your Yardi investment. With more than 25 years of invaluable insights, our industry experts will help you work smarter, more efficiently and with better results.

CONSULTING

## Gelbgroup's Yardi Aspire Implementation solution includes:

- Creating scheduled reports for decision-makers and supervisors.
- Developing a custom policy and procedure library and review process.
- Ensuring that data import/export from payroll, HRIS, or Voyager is properly set up.
- Personalizing the learner experience by automating the assignment of training based on job role, location, department, or property type.
- Creating custom learning plans and assignment rules, with an incentive system of reward points and achievement badges.

## Gelbgroup's Yardi Aspire Support solution includes:

- Ensuring that training and knowledge resources are up to date with new assets and training visibility rules are up to date.
- Managing live training events, from company conferences and classroom training to webinar training with service provider integrations.
- Monitoring Daily, Weekly, Monthly, Semi-Annual, and Annual Admin checklists to identify additional service opportunities.

## Gelbgroup's Custom Content Creation services include:

- Scoping requirements for any bespoke training content.
- Designing outreach campaigns to increase engagement and developing assessments and surveys authored using Aspire tools.
- Producing and deploying the training content in Aspire in appropriate media formats—such as video or printed documentation—that comply with your guidelines.
